INTERNATIONAL SYMPOSIUM ON PRACTICAL APPLICATIONS OF GROUND ENGINEERING FOR EMBANKMENTS ON SOFT SOILS, 2022

GEES2022

JOINTLY ORGANISED BY:

GEOTECHNICAL ENGINEERING TECHNICAL DIVISION, THE INSTITUTION OF ENGINEERS, MALAYSIA (IEM GETD) & IEM ACADEMY SDN BHD

EVENT MANAGED BY: IEM ACADEMY SDN BHD

EVENT DATE:

18 – 20 October 2022

(rescheduled from 23-25 November 2021)

TIME: 08.00 AM – 06.00 PM

VENUE:

DORSETT GRAND SUBANG, SUBANG JAYA, SELANGOR, MALAYSIA

Ref. No: IEM/21/xxx/S, with CPD Hours approved: Pending

SUPPORTED BY:

LEMBAGA LEBUHRAYA MALAYSIA (LLM)

INTRODUCTION

The Trial Embankments Malaysia programme was initiated in 1987 by Lembaga Lebuhraya Malaysia and it comprised fully instrumented full scale prototype embankment trials involving 14 different ground engineering techniques. The results of this trial programme were presented at the International Symposium on Trial Embankments on Malaysian Marine Clays in Kuala Lumpur on 6 to 8 November 1989.

The Geotechnical Engineering Technical Division of The Institution of Engineers, Malaysia (IEM GETD) is hosting the Symposium on Practical Applications of Ground Engineering for Embankments on Soft Soils and Exhibitions, in conjunction with the 31st Anniversary of the Trial Embankments Malaysia (TEM) at Muar, in Kuala Lumpur.

The Symposium will help delegates understand the technologies and techniques for soft soil engineering necessary for satisfactory construction of embankments (or earthworks), especially to support high speed transportation facilities, over soft foundation soils comprising:

- (a) Science and soil mechanics for soft soil engineering
- (b) Issues concerning engineering, construction and performance
- (c) Design and applications of ground engineering techniques and innovations for embankments on soft soils
- (d) Best practice in construction techniques and sustainable ground engineering of soft soils
- (e) Case studies on performance and behaviour of constructed works
- (f) Maintenance and rehabilitation of facilities constructed over soft soils
- (g) Challenges of long term maintenance of instrumentation and settlement prediction techniques
- (h) Other related geotechnical soft ground engineering

The Symposium aims at promoting the sharing of scientific knowledge, experience, skills, ideas and achievements in the designing, financing and contracting as well as construction, operation and maintenance and the rehabilitation of embankments for high speed transportation facilities amongst the ASEAN and other countries on an organised basis and with structured aims.

The Symposium shall also present the latest update on monitoring measurement data and behaviour of various surviving schemes that are maintained at the 33 years old world famous TEM program. Interested authors are invited to submit Abstracts and Papers.

SUBMISSION OF ABSTRACT & PAPERS

The Symposium theme is **PRACTICAL APPLICATIONS OF GROUND ENGINEERING FOR EMBANKMENTS ON SOFT SOILS**.

The Organising Committee on GEES2022 cordially invites you to submit abstract(s) of not more than 200 words for the Symposium by email to: manager.iemasb@gmail.com

The Symposium covers a broad range of themes related to geotechnical engineering, including but not, limited to:

- (a) Geotechnical engineering
- (b) Ground engineering
- (c) Embankments on soft soils
- (d) Others are also welcomed.

The Symposium language written and spoken shall be in English.

IMPORTANT DATES :

Notification to authors on acceptance of Abstract	15 March 2021
Deadline for full paper submission	15 May 2021
Notification of acceptance of full paper	15 June 2021
Deadline for submission of camera-ready papers	15 July 2021

TENTATIVE SYMPOSIUM CONTENTS

DAY 1:

- (a) Soft soil engineering for high speed transportation embankments including highways, high speed rails and airport runways and its infrastructure.
- (b) Infrastructures constructed on soft ground often encounter settlement problems that impaired their serviceability. A case in point is the KLIA2 runway, taxiway and parking apron settlement nightmares.
- (c) The lessons learnt from the TEM in Muar must have been forgotten although the international scale conference was held in 1989 in Subang Jaya with great enthusiasm.
- (d) The case of TEM in Muar has been quoted frequently by experts in their works for embankment on soft clay.

Young engineers should be interested to know about the behaviour of embankment on soft clay; particularly the marine clay of coastal areas like Muar as well as to gain exposure on effective ground engineering techniques available to ensure satisfactory post-construction performance.

DAY 2:

- (a) Settlement predictions for scheme 3/2 and 6/6 on June 2020. (Delegates interested to make predictions shall be provided with settlement monitoring data between September 1989 and August 1991 for the 2 schemes).
- (b) Trial Embankment Malaysia (TEM) in Muar; a 33rd Anniversary update.
- (c) Case histories of embankments from the TEM in Muar.

Long term behaviour of High Speed Transportation infrastructures on soft clay.

DAY 3:

- (a) Technical Visit to TEM Site.

Limited to the first 120 paid participants on first-come first-serve basis.

CANCELLATION POLICY

IEMASB reserves the right to postpone, reschedule, allocate or cancel the event. Full refund less 30% if cancellation is received in writing more than 30 working days before the commencement of event date. No cancellation will be accepted prior or 7 working day to the date of the event. However, replacement or substitute may be made.

TERMS & CONDITIONS

- We wish to remind that all registration fees must be FULLY paid before commencement of the course. IEM Academy Sdn. Bhd. reserves the right to refuse entry for participant(s) who have not paid their registration fees to event. THIS REQUIREMENT WILL BE STRICTLY ENFORCED.
- Payment via CASH / CHEQUE / BANK-IN TRANSMISSION / BANK DRAFT / MONEY ORDER / POSTAL ORDER / LO / WALK -IN will be considered as NORMAL REGISTRATION
- FULL PAYMENT must be settled before commencement of the event, otherwise participants will not be allowed to enter the hall. If a place is reserved and the intended participants fail to attend the event, the fee is to be settled in full.
- Fee paid is not refundable. Registration fee includes lecture notes, refreshment.
- IEM Academy Sdn Bhd reserves the right to cancel, alter, or change the program due to unforeseen circumstances. Every effort will be made to inform the registered participants of any changes. In view of the limited places available, intending participants are advised to send their registrations as early as possible so as to avoid disappointment.

Information and Instructions for Settlement Predictions at the International Symposium on Practical Applications of Ground Engineering for Embankments on Soft Soils, 2022 (GEESS2022)

Introduction

The International Symposium on Practical Applications of Ground Engineering for Embankments on Soft Soils, 2022 (GEESS2022) shall include an update on the monitored behaviours of the set of prototype scale trials that were featured exclusively at the International Symposium on Trial Embankments on Malaysian Marine Clays, Kuala Lumpur 1989. The prototype scale trials are called the Malaysian Trial Embankments.

To encourage an active participation at the Symposium, a settlement prediction exercise is included for interested delegates to the Symposium and invited Predictors. Settlements at the end of June 2021 since surface settlement measurements at the top of the completed embankments commenced in September 1989, are required to be predicted at the centres of the two Control embankments at the Malaysian Trial Embankments program. The results of the predictions shall be announced at GEESS2022 and compared to the settlement values measured at the end of June 2022.

EXHIBITION

A Technical Exhibition will be organised as an integral part of the Symposium. Project experience, design solutions, and application of geotechnical technology and state-of-the-art information can be highlighted. The standard shell scheme booth includes 3 metres by 3 metres (3m x 3m) or 4sqm standard booth with 2.44mHt rear and dividing pifex system and partition in white panel. The following items will be provided:

NO.	ITEM	DESCRIPTION	UNITS
1.	Electrical	Fluorescent lights	2
2.	Furniture	Information desk	1
		Folding chairs	2
		Waste paper basket	1
3.	Graphics	Overhead fascia board c/w inkjet sticker for company name and stand number	1

Exhibitors are entitled to the following:

- Two (2) Exhibitor Name* Tags for taking charge of exhibition booth only.
- One (1) complimentary participant* for attending the 2-day Symposium.
- Coffee and tea breaks as well as lunch will be provided during the 2-Day Symposium exhibition.
- One (1) coloured full A4 size advertisement* in the Symposium Souvenir Programme book.

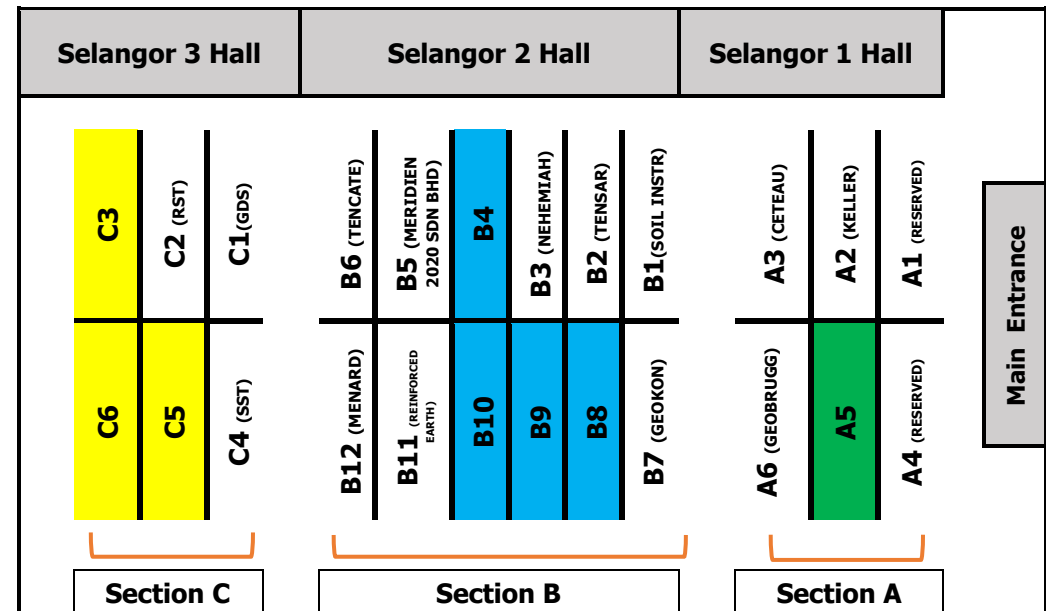

Note: * To be submitted by 5th June 2022
